A True Jingle

Nothing but life insurance do I sell—
And many say—I do it well—
One thing is sure—after 39 years—
Our business has dried up many tears,
When a woman is left without her man
With little money and hardly a plan—
How thankful she is for the monthly check
Which pays all her bills on time "by heck."
And many a prayer which is said each night—
Is "Thank God, **Jaquith for Life** was right"
Yes, **"Jaquith for Life — Keeps the Wolf Away."**
Won't you let me protect your family today.
Let's you and I, sit down and think
About what you own and then we'll link
Enough to that to make a fund—
To provide plenty for everyone.

Fire Alarm Signals

2 Blows after an alarm signifies fire under control.

5 Blows calls department for slight fire in Precincts 1, 2, 3.

3 Blows with 5 seconds intervals at 7:30 A. M. means no morning session of any school.

3 Blows at 12:15 P. M. with 5 seconds intervals between blows means no afternoon session of any school.

9-9—with 5 second intervals Boy Scouts call.

Note—Where possible, a box alarm is preferable, as it notifies firemen of the location of fire. Persons pulling in an alarm should always wait at box until the arrival of firemen so as to direct them to its location.

In giving an alarm by telephone be sure to give exact location of fire, street and number, whether serious or slight, and do not pull in a box alarm after engine house has been called, as this is sure to cause confusion.

Drivers must in all cases after an alarm by telephone press box nearest to fire when there is the least possible danger.

Officers will see that a roll call is held after each alarm and report same within 4 days to the chief of the fire department.
